Hanwha Vision Delivers AI for Every Surveillance Application at ISC West 2024
 Hanwha Vision is highlighting the critical role of Artificial Intelligence (AI) in diverse surveillance and business operations at ISC West 2024, Booth #14025, April 10-12 in Las Vegas. AI will be prominent throughout the Hanwha Vision booth, with many new and existing products now incorporating AI technology to boost their performance to unprecedented levels. The new AI-powered products from Hanwha Vision to be featured at ISC West:

I-PRO Advocates for Responsible AI Practices in Physical Security
 Gartner predicts that 90% of governments worldwide will enforce the use of responsible AI through regulations, policies, and the need for data privacy. While these guidelines are being developed, AI continues to evolve in rapid pace. I-PRO underscores the critical importance of ethical and responsible AI practices in the physical security domain.

Feenix Launches Channel Partner Program and Targets Latin America Business
 Feenix, a leading provider of IP camera solutions, has announced a new channel partner program designed to expand its reach into Latin America. The program offers a range of incentives, including exclusive pricing, technical support, and marketing resources, to help partners grow their business in the region.

AltraX E-Bridge Enables IP Over Coax Full Duplex 100Mbps
 AltraX E-Bridge is a new IP camera solution that enables full duplex 100Mbps IP over coax. This allows for high-speed video transmission over existing coaxial infrastructure, reducing the need for additional cabling and simplifying installation.

Video Released From Vasco Biker Shootout Faces Legal Issues
 A video released from a recent shootout involving Vasco bikers has raised legal concerns. The video, which shows a group of bikers in a confrontational situation, has been widely shared on social media, leading to questions about the legality of its distribution.

AI/ML New Smart Focus and Zoom Bullet IP-Cameras
 The new AI/ML Smart Focus and Zoom Bullet IP-Cameras offer advanced features for enhanced surveillance. These cameras utilize artificial intelligence and machine learning to optimize focus and zoom, ensuring clear and detailed video footage in various lighting conditions.

In Flatland, Fargoliner's Long Range Reading Solution Keeps Schneider Electric Employees Out of the Cold
 Fargoliner's Long Range Reading solution has been implemented by Schneider Electric to improve safety and efficiency in their manufacturing facilities. This solution enables long-range reading of labels and documents, reducing the need for manual inspection and minimizing the risk of injury.

SecurityWorld delivers content in co-operation with Syncomm Management Group.

SecurityWorld produces regular email communications and website content for a wide range of readers in the physical security industry. They offer an integrated advertising marketing campaign that includes email marketing, website banner advertising, and product focus programs that will drive interest to your company and your products.

Syncomm publishes the monthly print magazine for the Global Electronic Security Forum - a network of contacts accumulated from conducting public relations, marketing communication and management services for a wide variety of national and regional non-profit organizations since 1991. This publication provides authored content by industry thought leaders including the Top Right Drawer feature article from key thought leaders in the industry.

THE GLOBAL ELECTRONIC SECURITY FORUM is produced and distributed monthly. Ad space placements last a full month, up to 12 times per year. Each magazine is distributed via print and digital formats and is available to view anytime on <http://Security.World> and www.snnonline.com/publications.SecurityWorld, in collaboration with SMG, also produces a weekly electronic communication "First Thing Monday" promoting the magazine as well as recapping the previous week's industry news to its collective readership of 21,000+.
